

EV-HFTH2SOL

ELECTRICAL CONDUIT SOLAR
HEAVY DUTY 25mm LSZH-FR/HFT
4 METRE • BLACK

Built for demanding solar installations.

A heavy-duty, low smoke zero halogen conduit designed to provide superior mechanical protection and enhanced fire performance for commercial and industrial electrical systems.

EV-HFTH2 25mm LSZH-FR ELECTRICAL HD HFT SOLAR -40/140 AS/NZS 2053 AS61386 20/07/26b10 10:57:23S

KEY FEATURES

- 

25mm HEAVY DUTY
Robust mechanical protection for long term durability.
- 

LSZH CONSTRUCTION
Low Smoke Zero Halogen material for safer environments.
- 

FR / HFT RATED
Enhanced fire performance to meet stringent safety standards.
- 

UV RESISTANT BLACK FINISH
Suitable for outdoor use and harsh solar applications.
- 

COMPLIES WITH STANDARDS
Manufactured to AS/NZS 2053 and AS/NZS 61386.

BENEFITS

- 

SUPERIOR PROTECTION
Thick, impact-resistant conduit protects cables in tough environments.
- 

ENHANCED FIRE SAFETY
Low smoke and zero halogen construction reduces toxic fumes and smoke.
- 

BUILT FOR SOLAR
UV stabilised for long life in outdoor solar installations.
- 

EASY INSTALLATION
Smooth internal surface for easy cable pulling and handling.
- 

LONG TERM RELIABILITY
Engineered to perform in extreme temperatures and demanding conditions.

TECHNICAL SPECIFICATION

Product Code	EV-HFTH2SOL
Description	Electrical Conduit SOLAR Heavy Duty
Size	25mm
Length	4 Metres
Colour	Black
Material	LSZH (Low Smoke Zero Halogen)
Fire Rating	FR / HFT
Standards	AS/NZS 2053, AS/NZS 61386
Temperature Range	-40°C to +140°C
Application	Solar & Electrical Conduit

IDEAL FOR

- 

SOLAR PV
INSTALLATIONS
- 

COMMERCIAL
BUILDINGS
- 

INDUSTRIAL &
INFRASTRUCTURE
- 

SAFE, RELIABLE
PERFORMANCE
